DEPARTMENT OF DRUG AND
ALCOHOL PROGRAMS

**Pennsylvania Department of
Drug and Alcohol Programs**

**Compulsive and Problem
Gambling Annual Report**

2020

About This Document

The Pennsylvania Racehorse Development and Gaming Act requires the Department of Drug and Alcohol Programs (DDAP) to develop an annual report on the impact of the programs funded by the Compulsive and Problem Gambling Treatment Fund. This report fulfills these requirements for the State Fiscal Year (SFY) of July 1, 2019 – June 30, 2020.

Compulsive and Problem Gambling Treatment Fund

Act 71 of 2004, The Pennsylvania Racehorse Development and Gaming Act, establishes the Compulsive and Problem Gambling Treatment Fund (CPGT) as a mandated annual transfer of dollars from the State Gaming Fund to DDAP. Act 1 of 2010 specifies that the amount transferred annually be \$2,000,000 or an amount equal to .002 multiplied by the total gross terminal revenue of all active and operating licensed gaming entities, whichever is greater. DDAP uses CPGT funds to maintain a crisis counseling and referral hotline, promote awareness regarding recognition and prevention of compulsive and problem gambling, facilitate the availability of effective assistance programs for individuals with a gambling problem and affected family members, and conduct studies to identify Commonwealth of Pennsylvania (commonwealth) citizens at risk developing a gambling disorder. Act 42 of 2017 expanded gaming to include a new category of mini casino licenses, interactive gaming, fantasy gaming, sports betting, truck stop gaming terminals, and airport gaming terminals. Over \$4.43 million was transferred to the CPGT fund during the period of July 1, 2019 through June 30, 2020 (SFY 2019-20).

DDAP distributed approximately \$5 million of the CPGT fund for compulsive and problem gambling prevention and treatment for SFY 2019-20. Approximately 72 percent of the total was provided to the SCAs for the purpose of problem gambling needs assessments, prevention programs, outreach programs, education programs, and other DDAP approved services. Eleven percent was disbursed directly to gambling treatment providers to provide outpatient gambling counseling services to residents of the commonwealth. The remaining 17 percent was used for administration, oversight of the programs, trainings, and helpline services associated with problem gambling.

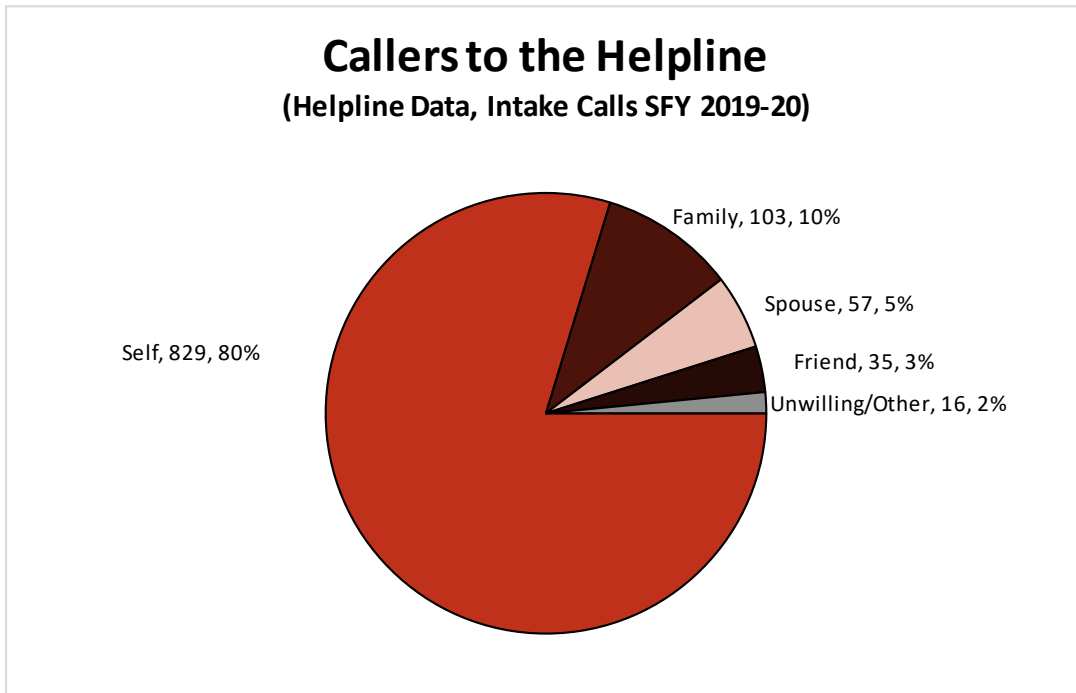

The Problem Gambling Helpline

DDAP contracts with the Council on Compulsive Gambling of Pennsylvania, Inc. (CCGP) to manage its toll-free Pennsylvania Gambling Helpline, 1-800-Gambler, which includes a 24-hour internet chat and texting feature.

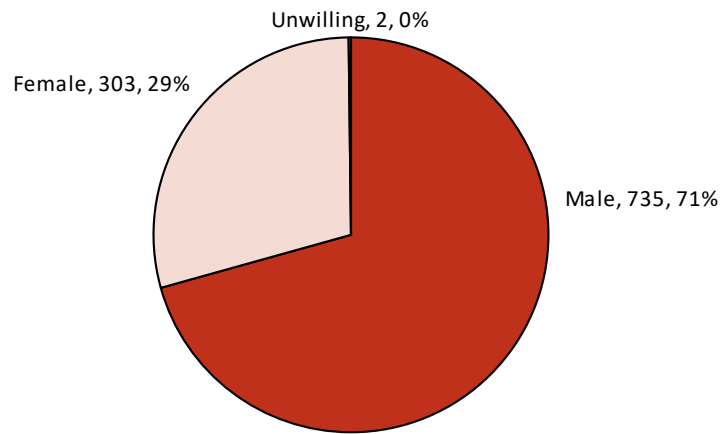

The helpline provides confidential crisis counseling and referral services for problem gamblers and their family members who may be affected by problem gambling. Calls to the helpline are answered 24 hours a day, seven days a week, by professionally trained operators.

The helpline provides translation services with over 60 languages and operators collect as much data as the context of the call allows including demographics and gambling related data. Resources given from the helpline include referrals to treatment providers, Gamblers Anonymous (GA) and Gam-Anon meetings, and informational handouts.

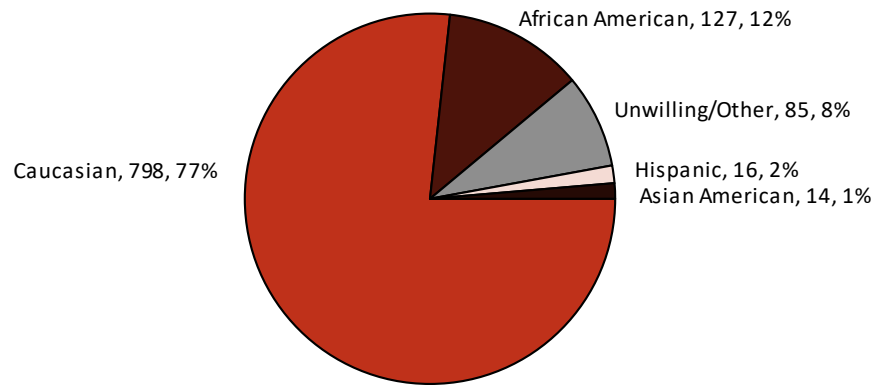

The data provided on pages 2-5 reflect the helpline data for SFY 2019-20. During this time a total of 1,040 calls to the helpline were intakes for problem gambling treatment resources. Calls to the helpline come from the entire commonwealth with the highest number from Philadelphia and Allegheny counties. Most of the callers were Caucasian males calling for themselves. The caller's precipitating problem was most often financial hardships due to gambling and the most identified type of problematic gambling was slot machines.

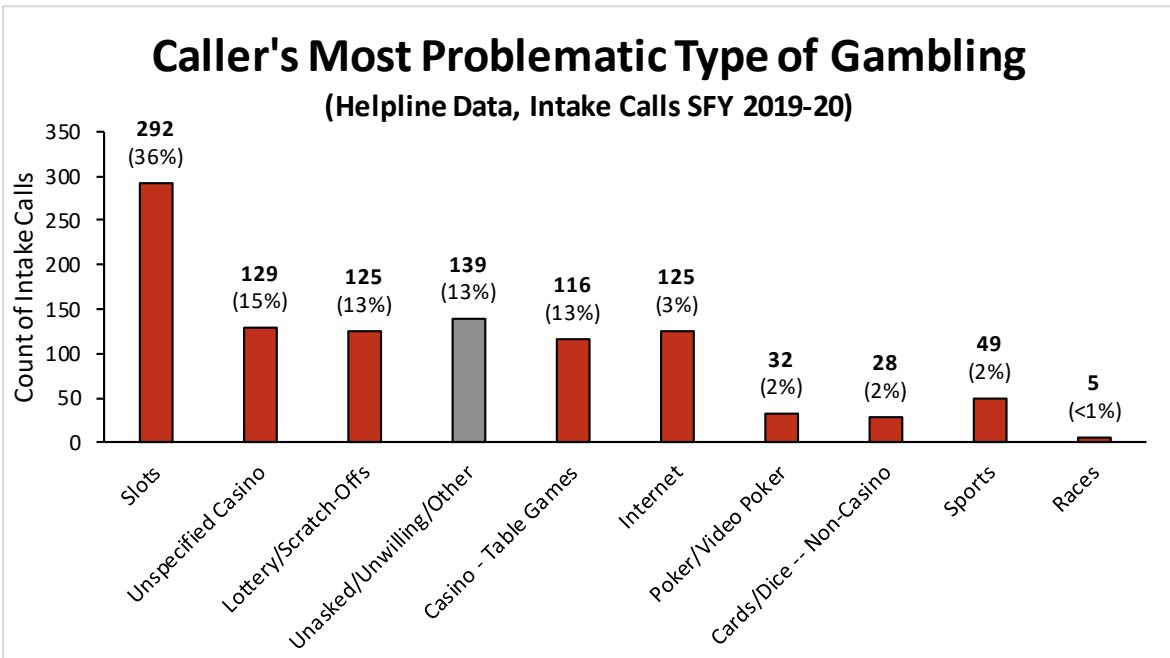

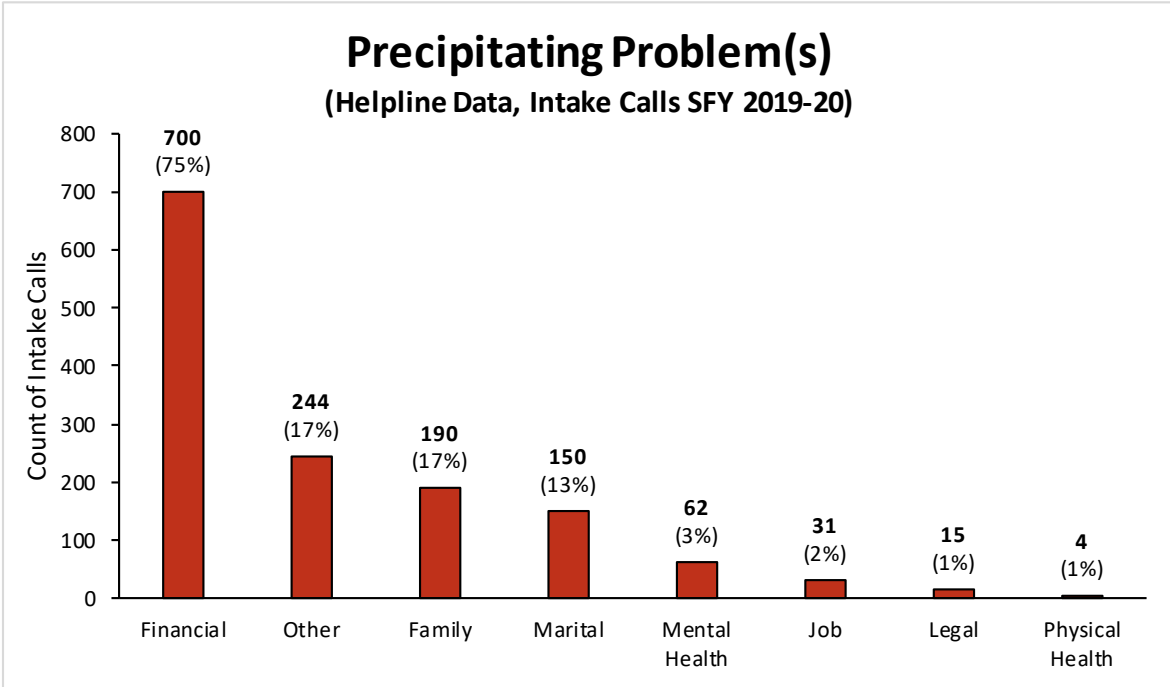

Gender of Caller (Helpline Data, Intake Calls SFY 2019-20)

Ethnicity of Caller (Helpline Data, Intake Calls SFY 2019-20)

Problem Gambling Treatment Providers

DDAP directly contracts with individual treatment providers and agencies to provide outpatient counseling to Pennsylvania residents with a gambling disorder and their families. These providers deliver problem gambling treatment to Pennsylvanians who are uninsured or underinsured.

As of August 30, 2020, DDAP has entered into a contract with 58 agencies to provide these services. DDAP conducts continuous recruitment activities to engage counselors available to provide treatment services. DDAP maintains information regarding the number of contracted providers and counties on the DDAP website at:

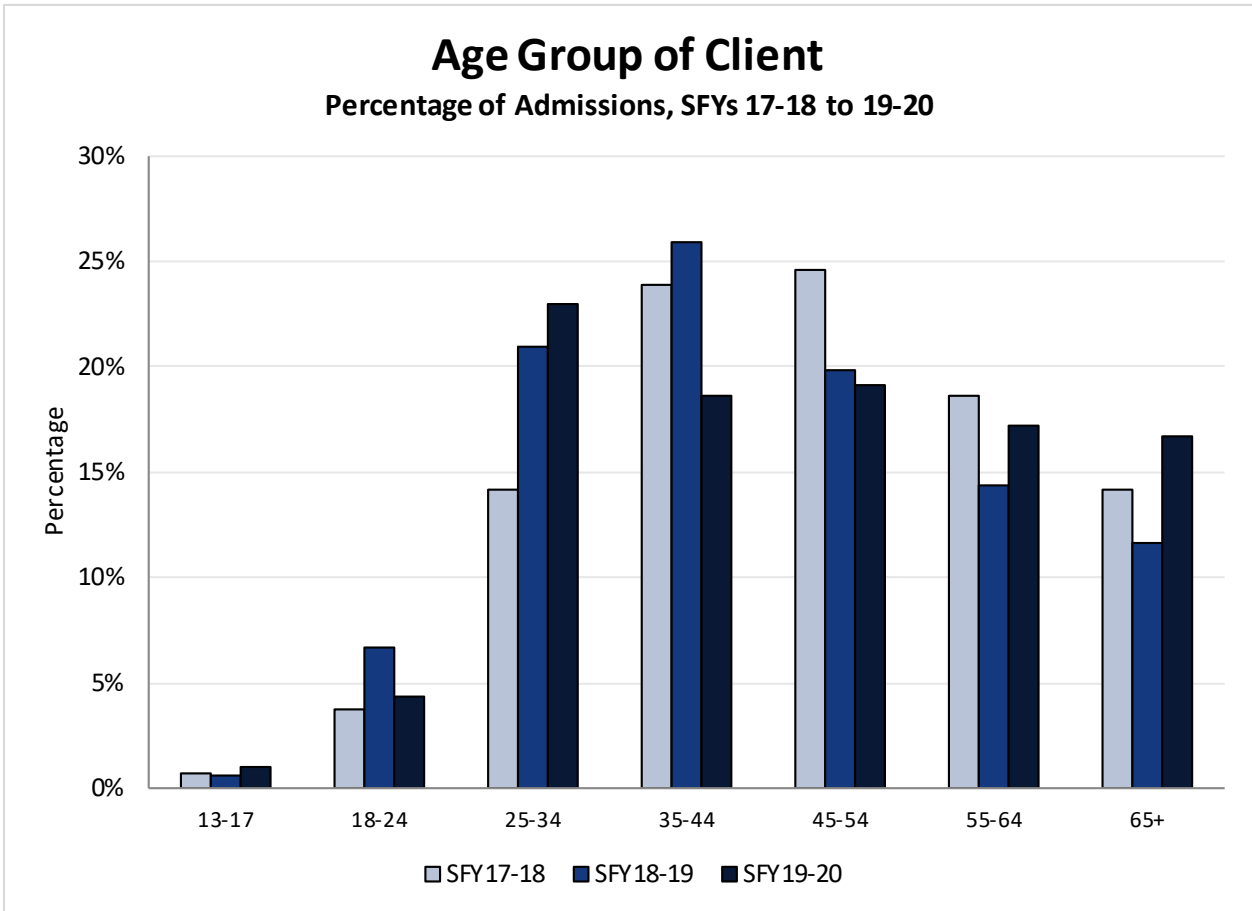

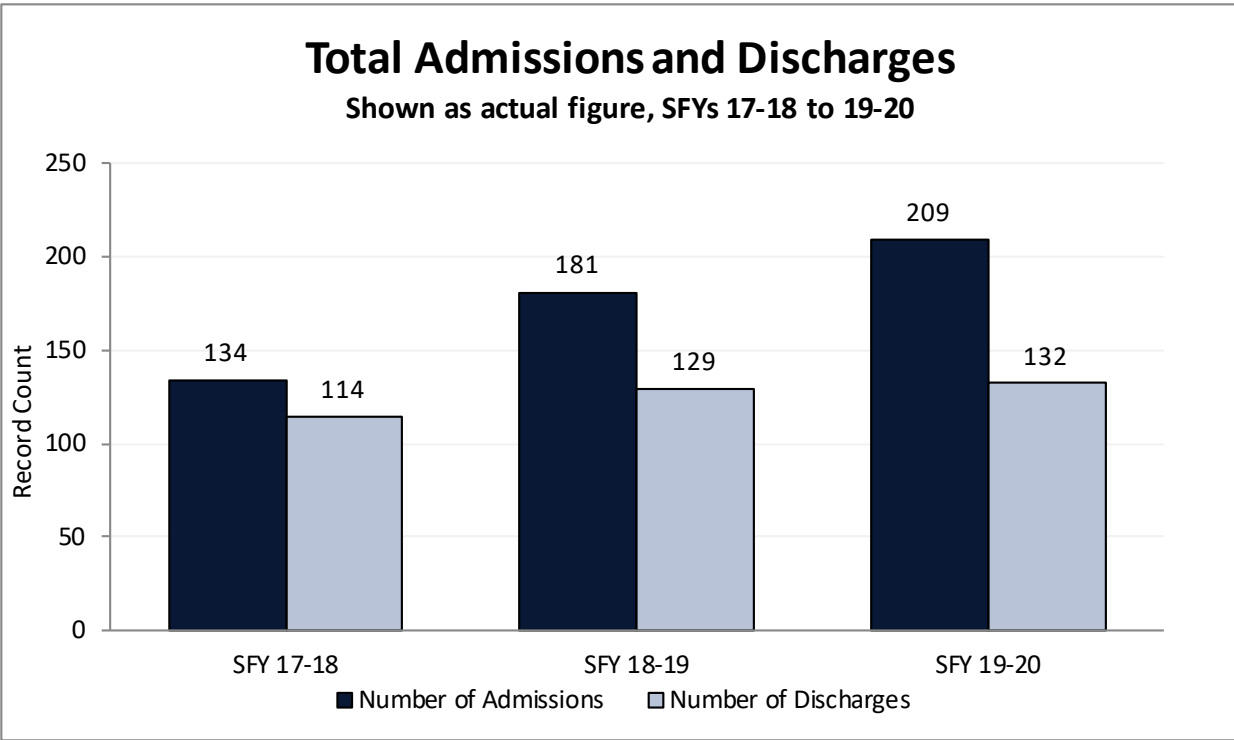

<https://www.ddap.pa.gov/Documents/Agency%20Publications/Gambling%20Providers%20or%20Agencies%20in%20Pennsylvania.pdf>

DDAP annually monitors its contracted gambling treatment providers. The monitoring process includes onsite or offsite visits depending on the number of clients each provider serves.

Impact of Problem Gambling Treatment

The following data is collected by outpatient problem gambling treatment providers on clients that were treated using the CPGT fund. A total of \$512,063 was expended in SFY 2019-20. For this report an admission is counted when a client enters treatment and is paid for using CPGT funding. A discharge is counted when CPGT funding is no longer being used even if the client remains in treatment.

Admissions by Race

Shown as percentage, SFY 2019-20 data

Admissions by Ethnicity

Shown as percentage, SFY 2019-20 data

Admissions by Income

Percentage (Count) of admissions reporting income level, SFY 2019-20 data

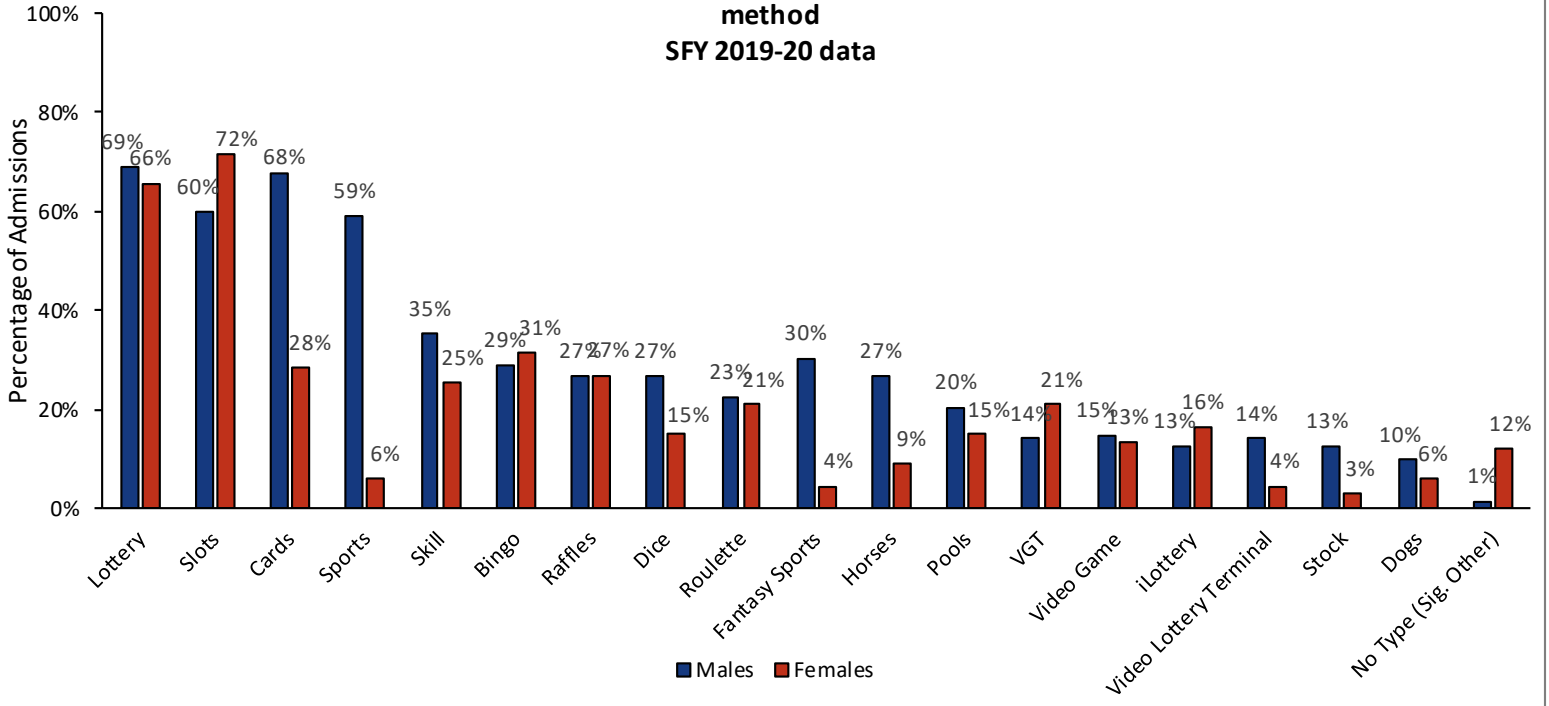

Admissions/Discharges by County of Residence

Shown as actual figure, SFY 2019-20 data

Preferred Gambling Methods by Gender

Percentage of admissions for each gender reporting method, ordered by total admissions reporting method
SFY 2019-20 data

Employment Status at Admission vs. Discharge

Record count with employment status at admission/discharge, for discharges during SFY19-20

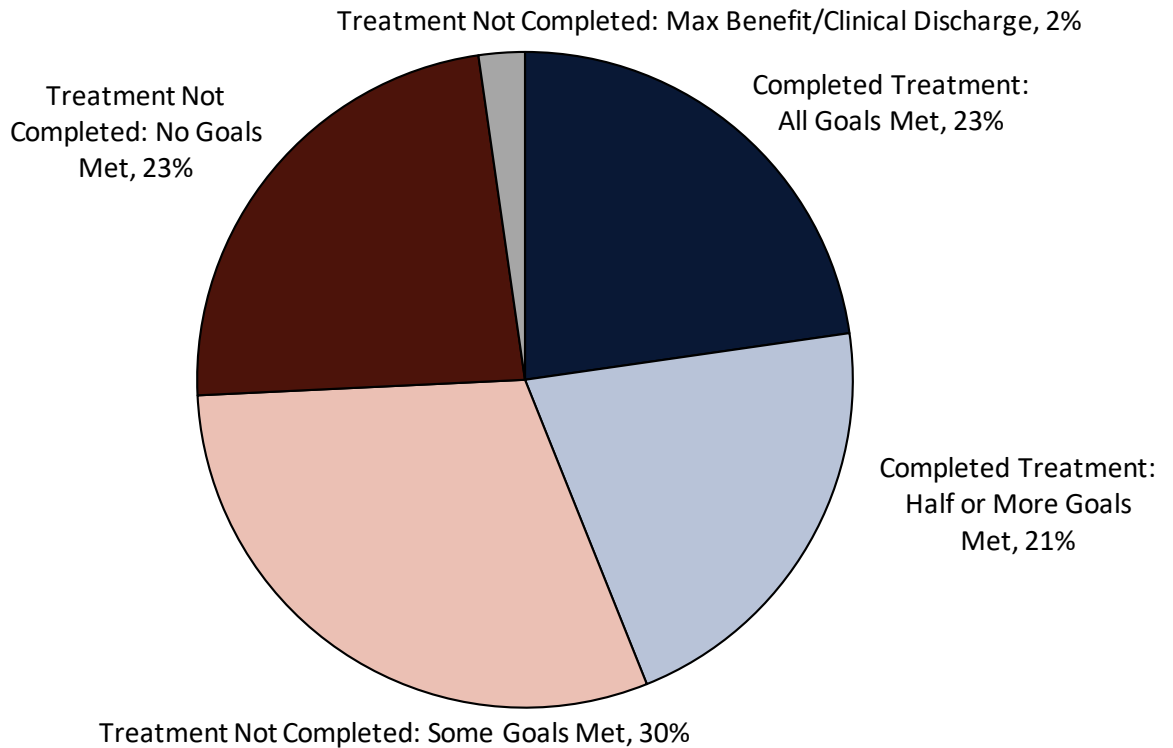

Change in Gambling Frequency from Admission to Discharge

Shown as percentage, SFY 2019-20 data
Discharges for Family of Gambler Omitted

Discharge Status (Goals Met or Unmet)

Shown as percentage, SFY 2019-20 data

Prevention of Problem Gambling

DDAP's problem gambling prevention goals are:

- Increase awareness of underage and problem gambling as well as risk and protective factors that influence underage and problem gambling
- Increase awareness of resources available to help individuals and family members who are impacted by problem gambling
- Promote the problem gambling helpline
- Promote best practices in the prevention of problem gambling

DDAP achieves these prevention goals by executing best practice programming, strategies and activities at the local community level in collaboration with contracted SCAs (Single County Authorities). Funds are provided to the SCAs to:

- Assess community needs
- Develop a plan to address identified needs
- Implement, monitor and evaluate problem gambling prevention programs and services as outlined in the SCA's plan

The following 42 SCAs were allocated \$3,998,141 in SFY 2019-20 as follows:

Single County Authority	Allocation	Single County Authority	Allocation
Allegheny	\$297,159	Fayette	\$143,171
Armstrong/Indiana/Clarion	\$123,577	Forest/Warren	\$52,097
Beaver	\$42,219	Franklin/Fulton	\$75,000
Bedford	\$36,260	Greene	\$19,187
Berks	\$118,482	Lackawanna/Susquehanna	\$36,105
Blair	\$50,252	Lancaster	\$216,162
Bradford/Sullivan	\$5,000	Lawrence	\$47,492
Bucks	\$238,617	Lebanon	\$73,579
Butler	\$107,957	Lehigh	\$100,517
Cambria	\$73,730	Luzerne/Wyoming	\$93,078
Cameron/Elk/McKean	\$38,836	Lycoming/Clinton	\$37,722
Carbon/Monroe/Pike	\$49,708	Mercer	\$34,220
Centre	\$60,401	Montgomery	\$61,592
Chester	\$35,000	Northampton	\$15,000
Clearfield/Jefferson	\$90,244	Northumberland	\$15,000
Columbia/Montour/Snyder/Union	\$27,926	Philadelphia	\$648,126

Youth Gambling Prevention Awareness: Level II	4	2,858
Total People Served		271,791

State Gaming Fund

Act 71 of 2004, the Pennsylvania Racehorse Development and Gaming Act, established the State Gaming Fund to receive gaming license fees and 34 percent of the gross terminal revenue (GTR) generated by licensed gaming facilities. The State Gaming Fund receives 52 percent of gross interactive gaming revenue (GIGR) generated through simulated slot machines and 14 percent of GIGR generated through simulated table games. State Gaming Fund revenues are annually distributed to the programs highlighted on the next pages and the remainder is transferred to the Property Tax Relief Fund. Also, licensed gaming facilities deposit an additional 4 percent of GTR for slot machines, 2 percent of gross table game revenue and 2 percent of GIGR into the State Gaming Fund for local share distributions where gaming facilities are located.

The portion of the State Gaming Fund that is allocated to the SCAs is solely for financing Substance Use Disorder (SUD) assessments, including SUD assessments associated or related to compulsive and problem gambling, and for the related SUD treatment in -Case management, Medically Monitored Intensive Inpatient Withdrawal Management, Clinically Managed High-Intensity Residential Services (Adult) / Clinically Managed Medium Intensity Residential Services (Adolescent), Clinically Managed Highest-Intensity Residential Services (Adult) / Clinically Managed High-Intensity Residential Service *include co-occurring, and Clinically Managed Low Intensity Residential *include co-occurring licensed to provide SUD treatment services.

The information on the following page highlights the information collected for SFY 2019/20.

Activity Name	Adult Clients	Adolescent Clients	Allocated
Case Management (Level of Care Assessments only)	3,147	23	\$ 541,069
Medically Monitored Intensive Inpatient Withdrawal Management	360	0	\$ 366,614
Clinically Managed High-Intensity Residential Services (Adult) / Clinically Managed Medium Intensity Residential Services (Adolescent)	59	1	\$ 175,327
Clinically Managed Highest-Intensity Residential Services (Adult) / Clinically Managed High-Intensity Residential Service *include co-occurring	619	1	\$ 1,932,397
Clinically Managed Low Intensity Residential *include co-occurring	25	0	\$ 28,596
