18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

Activities funded by the Substance Abuse Prevention & Treatment Block Grant must be consistent with the governing federal statutory requirements which require that a minimum of 20% of the funds available for drug and alcohol must be used for prevention. For grants beyond Fiscal Year 1994, States shall expend no less than an amount equal to the amount expended by the State for Fiscal Year 1994 on services designed for pregnant women and women with dependent children. Federal block grant funds are allocated to Single County Authorities through a contracting mechanism for the development and implementation of a community-based plan for the delivery of substance use disorder services. In addition, a portion of the federal block grant appropriation will be used by the Department of Drug and Alcohol Programs to support a variety of prevention, intervention and treatment, and recovery support activities through direct contracts. Funding is provided to the Department of Corrections to support the provision of drug and alcohol treatment services at State Correctional Institutions. Funding is provided to Pennsylvania Commission on Crime Delinquency to administer and support data analysis services and PA Youth Survey; as well as pass through funds to assist in the development of a comprehensive substance abuse prevention needs assessment and planning process.
