State Opioid Response (SOR) Grant

Applies to:
WITS Version 19.9.0

Standard SOR End User Guide

WITS Customers
Last Updated August 2020
Version 4
Preface

“The State Opioid Response (SOR) program aims to address the opioid crisis by increasing access to medication-assisted treatment using the three FDA-approved medications for the treatment of opioid use disorder, reducing unmet treatment need, and reducing opioid overdose related deaths through the provision of prevention, treatment and recovery activities for opioid use disorder (OUD) (including prescription opioids, heroin and illicit fentanyl and fentanyl analogs).”

Intended Audience

This Standard SOR user guide has been prepared for provider agency staff members delivering SOR services to individuals. Information included will assist providers in understanding the standard WITS SOR system and the data entry requirements for the SOR grant.

System Requirements

WITS is a web-based application accessed through an Internet (web) browser using an Internet connection.

Internet Browsers

WITS is compatible with up-to-date versions of most modern Internet browsers such as:

- Apple® Safari®
- Google Chrome™
- Mozilla® Firefox®
- Windows Internet Explorer 10 or newer (recommended)

**Note:** Do not allow your Internet browser to save your password, as this information will be routinely updated.

Pop-up Blocker

Certain features in WITS, such as Snapshot and Scheduler, will open in a separate browser window when selected. Make sure your browser allows pop-ups from WITS.

Documentation Updates

Version 4 (WITS 19.9.0) (Current Version)

The following topics have been added in this documentation version.

- **GPRA Follow-up Due Summary Screen** (Part 4: GPRA Interviews on page 33)
- **GPRA Follow-up Due Detail Screen** (Part 4: GPRA Interviews on page 37)
- **GPRA Discharge Due Screen** (Part 4: GPRA Interviews on page 44)
- **Intake Close Processor** (Part 1: Customer Specific Information on page 3)
- **Prepopulate Behavioral Health Diagnoses screen with Medications from Encounter** (Part 4: GPRA Interviews on page 41 and on page 47)

Version 3 (WITS 19.8.0)

The following topics have been added in this documentation version.

- Added confirmation screen upon completing GPRA Follow up interview within window to automatically create a GPRA Discharge with the same interview information. (Part 4: GPRA Interviews, on page 43)
- Added information about **GPRA Discharge Services Received** section populated with encounter information. (Part 4: GPRA Interviews, on page 49)

Version 2 (WITS 19.6.0)

The following topics have been added in this documentation version.

- **Updated Standard SOR Workflow Diagram** (Part 1: Customer Specific Information on page 1)
- **Grant Episode Concepts** (Part 1: Customer Specific Information on page 2)
- **GPRA Interviews** (Part 4: GPRA Interviews on page 27)
  - GPRA Intake Interview
  - GPRA Follow Up Interview
  - GPRA Discharge Interview

Note: Notes contain information for users to take note of, as the information may affect what the user does with the system.

Tip: Tips contain information helpful to the user, such as providing an easier way to do something.

Important: Typically, these highlight details for the user to consider or review before continuing with a step or action within the system. This information may warn the user about possible error messages that may occur if the instructions are not followed, or it may indicate/remind users of additional actions to take before proceeding, such as downloading required software.
Part 1: Customer Specific Information

WITS allows providers to easily enter information for individuals and services they receive as part of the SOR program.

- The initial provider agency that works with an individual will create the client profile, intake, and enroll the client into a SOR program.
- If the provider agency needs to refer an individual to another provider for services, WITS has an automated consent/referral process that is HIPAA/42 CFR Part 2 compliant. Once the referred-to service provider accepts the referral, WITS will automatically set up the client profile, intake and SOR program enrollment.
- The initial agency can enter GPRAs or the referred-to agency can enter the GPRAs. WITS will ensure that there are no duplicate GPRAs created for individuals enrolled in the SOR program. Also, if the providers have entered encounters, WITS will map those encounters to the SOR discharge GGRA.

Workflow Diagram

The following diagram illustrates the standard SOR workflow process.
Grant Episode Concepts

Background

When a client’s GPRA interviews are completed, they are sent to SPARS. Each type of GPRA Interview (Intake, 6-Month follow up, Discharge) is sent automatically as an upload from WITS. If the same type of GPRA is sent twice (for example, if two GPRA Intakes are completed), SPARS will inactivate the first GPRA Intake interview when the second is completed. In order to prevent older interviews being inactivated in error, WITS now has a grant episode.

Grant Episode Concepts

Table 1-1: Grant Episode Events and Information

<table>
<thead>
<tr>
<th>Event</th>
<th>Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>GPRA Menu Item</td>
<td>The ability to enter a GPRA in WITS only becomes available when a WITS client program enrollment (CPE) exists where the associated program has a value in the Grant field and the end user has the GPRA (Full Access) security access role.</td>
</tr>
<tr>
<td>Grant Episode</td>
<td>This allows the client to be referred to other agencies and have the same grant episode. If Agency A completes the GPRA Intake and then refers the client to Agency B, Agency B will be able to continue the grant episode and complete the GPRA 6-Month Follow Up and GPRA Discharge interviews for the same client. This will prevent another agency from inadvertently inactivating the previous GPRA Intake because the grant episode will remain assigned to this client in other agencies.</td>
</tr>
</tbody>
</table>

1. The Grant Episode is created and put into a ‘Pending’ status when the Client Program Enrollment (CPE) is created for a program with a Grant field value.
2. The Grant Episode follows the client’s UCN throughout the process of creating GPRAs.
3. The ‘Pending’ grant episode will become ‘Active’ once the GPRA Intake interview is completed.
4. It will remain active through the 6-Month Follow-Up and Discharge interviews.
5. Once all 3 interviews are completed, the Grant Episode will have a status of ‘Closed.’
6. Once the Grant Episode is ‘Closed’, a new ‘Pending’ Grant Episode can then be created if the client needs treatment again.
7. The WITS Administrator could change Grant Episode from ‘Active’ to ‘Inactive’ (this can be done upon creation of a client program enrollment within a different agency).

WITS Administrator Process

Use Case: Client with GPRA intake at one provider goes to another provider without a WITS consent/referral

1. If the client goes to another provider who attempts to add a Client Program Enrollment in SOR and that client/UCN already has an ‘active’ grant episode, the system will prohibit this.
   - The provider/user will be presented with a WITS error message:

   🚨 There is a problem creating this client program enrollment record. Please contact your SCA administrator to resolve this conflict. 🚨
2. The WITS Administrator would then be able to determine if the client program enrollment can be added within the agency by either continuing the existing episode or creating a new episode (which will inactivate the previous episode).

**Intake Close Processor**

For customers only using SOR, the **Intake Close Processor** is a scheduled task that runs every night to automatically close client intakes. Client intakes will be closed when all Client Program Enrollments are for a closed or inactive grant episode and there has been no activity within that client intake (no encounters saved or updated) for a certain number of days. The default number of days is set to 45, but the number can be changed in a site’s configuration.

⚠️ **Important**: The Intake Close Processor applies to SOR only customers.
Part 2: Client Setup

Search for a Client

Before creating a new client record, search for your client to make sure the client is not already in WITS.

1. To view clients within your agency, click on the Client List menu item. A blank Client List screen will appear.

2. Use the fields in the Client Search section to narrow your results.

   **Tip:** When searching for a client, try to use unique information, such as birthdates or social security numbers, if possible. You can also enter a partial name (or other field) followed by an "*". This is called a wild card search. For instance, if you search for Last Name of “Smit*”, the search results will display people with the last name of “Smith”, “Smitty”, “Smithson”, etc.

3. After selecting from the search fields, click Go to view the results.

![Client List Screen](image)

Figure 2-1: Client List screen, Action links

4. Look for your client in the Client List. If you find the right person, view their profile by pointing to the pencil icon in the Actions column and clicking the Profile link. If you do not find your client, you can create a new client record by clicking the Add Client link.
Client Search Tips

Client Name or Number

Use a client’s nickname or alternate names in the First Name or Last Name fields.

Use an asterisk (*) to perform a wildcard search.

Examples:

- Find clients whose last name starts with "Jon": Jon*

- Search by the last 4 digits of a client’s SSN: *1123

Client Birthday or Age

Search within a timeframe by separating the two dates with a colon (:). Search for clients born after a certain date with a greater than sign (>). Search for clients born before a certain date with a less than sign (<).

Examples:

- Find clients born after a certain date: >12/30/1959
Create Client Profile

Where: Client List > Client Profile

To add a new client to the system, follow the steps below.

Note: Please search for each client before creating a new record.

1. On the left menu, click Client List.
2. On the Client List screen, click Add Client.

3. On the Client Profile screen, enter the required client information. See the table below for information on each field.

Important: When adding new clients to the system, review the Client Profile fields for accuracy before saving the screen. Once the Client Profile screen is saved, a Unique Client Number (UCN) is created based on the data provided. It is important to enter client information correctly to avoid duplicate client entry in the future.

Table 2-1: Client Profile fields

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Current First Name</td>
<td>Type the client’s current first name.</td>
</tr>
<tr>
<td>Middle Name</td>
<td>(Optional)</td>
</tr>
<tr>
<td>Current Last Name</td>
<td>Type the client’s current last name.</td>
</tr>
<tr>
<td>Mother’s Maiden Name</td>
<td>(Optional)</td>
</tr>
<tr>
<td>Field</td>
<td>Description</td>
</tr>
<tr>
<td>--------------------------</td>
<td>-----------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Suffix</td>
<td>(Optional)</td>
</tr>
<tr>
<td>Birth First Name</td>
<td>Type the client’s birth first name.</td>
</tr>
<tr>
<td>Birth Last Name</td>
<td>Type the client’s birth last name.</td>
</tr>
<tr>
<td>Gender</td>
<td>Select the client’s gender from the drop-down list.</td>
</tr>
<tr>
<td>DOB</td>
<td>Enter the client’s date of birth.</td>
</tr>
<tr>
<td>SSN</td>
<td>Type the client’s Social Security Number. If the Social Security Number is not Known, enter all 0’s.</td>
</tr>
<tr>
<td>Driver's License and State</td>
<td>(Optional) Type the number and then select the State from the drop-down list.</td>
</tr>
<tr>
<td>Has paper file</td>
<td>(Optional) Select Yes or No. Field defaults to Yes.</td>
</tr>
<tr>
<td>Provider Client ID</td>
<td>(Optional)</td>
</tr>
</tbody>
</table>

4. Click **Save**.

5. Click the **right-arrow** to move to the **Alternate Names** screen.
Alternate Names
The client’s nickname or street name may be entered on this screen

Tip: Alternative names can also be used to search for the client’s profile in the future. On the Client Search screen, type the client’s alternative name in the First Name and/or Last Name fields.

1. On the Alternate Names screen, click **Add Alternate Name**, and the bottom half of the screen becomes editable.

2. Complete at least the **First Name** field.

3. Click **Finish**. The name will now appear in the list at the top of the screen.

4. From the Alternate Names screen, click the **right-arrow** button to open the **Additional Information** screen.
Additional Information

1. On the **Additional Information** screen, complete the light-yellow fields.

   Table 2-2: Additional Information screen

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ethnicity</td>
<td>Select from the drop-down list.</td>
</tr>
<tr>
<td>Selected Races</td>
<td>Select one or more races.</td>
</tr>
<tr>
<td>Have you ever served in the Armed Forces, in the Reserves, or in the National Guard?</td>
<td>Select from the drop-down list.</td>
</tr>
</tbody>
</table>

   ![](image.png)

   **Figure 2-4: PA-WITS SOR screen**

2. When complete, click **Save**, then click the **right-arrow** button to open the **Contact Info** screen.
Contact Info

**Tip:** Enter the client’s contact information on this screen to help locate the client for follow-ups.

1. On the **Contact Info** screen, a phone number can be entered for the client.

2. To enter an address, click **Add Address**. This will open the Address Information screen.

3. Enter the client’s **Address Type**, **Address line 1**, **City**, **State**, and **Zip Code**.

4. When complete, click **Finish**, and the client’s address information will show up on the Contact Info screen. You may enter several addresses for a client. If a client has a new address, update the **Address Type** of the current address record to “Previous”, then create a new address.

5. From the **Contact Info** screen, click the **right-arrow** button to open the **Collateral Contacts** screen.
Collateral Contacts

**Tip:** Enter any collateral contacts for the client on this screen to help locate the client for follow-ups.

1. On the **Collateral Contacts** screen, click the **Add Contact** link.

![Collateral Contacts screen](image)

Figure 2-7: Collateral Contacts screen, click Add Contact

2. Enter the required client information. See the table below for information on the required fields.

**Table 2-3: Collateral Contacts required fields**

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Name</td>
<td>Type the contact’s first name.</td>
</tr>
<tr>
<td>Last Name</td>
<td>Type the contact’s last name.</td>
</tr>
<tr>
<td>Relation</td>
<td>Select the collateral contact’s relation to the client from the drop-down menu.</td>
</tr>
<tr>
<td>Address, City, State</td>
<td>Type the contact’s address information</td>
</tr>
<tr>
<td>Can Contact</td>
<td>Select Yes or No.</td>
</tr>
<tr>
<td>Consent On File</td>
<td>Select Yes or No.</td>
</tr>
</tbody>
</table>
3. When complete, click **Finish**. The collateral contact name(s) will be displayed in the list section of the screen.

4. From the **Collateral Contacts** screen, click the **right-arrow** button to open the **Other Numbers** screen.
Other Numbers

In this section, users can add additional identifying numbers for a client, such as a court case number.

1. On the Other Numbers screen, click the Add Other Number link. The bottom half of the screen now becomes editable.

2. Fill in information such as, Number Type, Number, Relation, and Address of the contact.

3. The Contact dropdown box will display the names of any saved Collateral Contacts from the previous screen. If the name of the Collateral Contact is not present, click on the Collateral Contacts screen to add a new record.

4. When complete, click Finish. The names now show up in the table on top of the screen.
Client Group Enrollment

A client group enrollment (CGE) must be entered for each client. This will identify the funding source for the client. If the client is not being funded by an SCA, there is a “No SCA” option that can be selected. The CGE can be updated as funding sources change.

1. Click **Add Government Contract Enrollment**

<table>
<thead>
<tr>
<th>Payor List</th>
<th>Add Government Contract Enrollment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Actions</td>
<td>Priority</td>
</tr>
<tr>
<td>------------</td>
<td>----------</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2. Select the Contract, or funding source, from the drop-down menu. The options will be an SCA that the provider contracts with or No SCA.

   The Plan-Group field will auto populate with the appropriate information based on the Contract selected. The Subscriber # will auto populate with the client’s UCN.

3. Enter the Start Date, which is the date the selected funding source will begin covering services.

4. Click **Save**

5. On the Payor List, click **Finish**, and you will be returned to the Client Search.
History

The History sub-menu displays a list of all changes that have been made to the client information as well as any access to this client’s record. It lists the date, the staff person, and a description of the access or change.

![Client History screen](image)

Figure 2-11: Client History screen
Linked Consents

Where: Client List > Clients with Consents from Outside Agencies

Each time another agency consents client information to your agency, a row will be displayed on the “Clients with Consents from Outside Agencies” section of the Client List screen. Always look at the linked consents first to make sure you don’t already have that client entered.

If the consent is sent along with a referral and the referral is accepted at the referred to agency, users with a Clinical Supervisor role may manually link and unlink consents. This action is available when it is clear that a client with consented information is in fact the same person as a client that exists in the agency. They may not have been automatically linked because the names or other identifying information may have been different in the sending agency than they are in the receiving agency.

For example:

A client named “Bobby” is referred into your agency from an outside agency. Your agency already has a record for a client named “Robert”. The Linked Consents screen allows you to compare the New/Referred Client Information (Bobby) with the Existing Client Information (Robert). Using this screen, you can tell that Robert and Bobby are the same person and these two profiles can be linked together so the same client won’t have two different client profiles within the same agency.
Link to Consented Client

1. On the left menu, click **Client List** and then click **Go**.

2. In the **Clients with Consents from Outside Agencies** section, hover over the Actions column and click **Link**.

3. The **Link Client Search** screen will appear and the Consented Client information is displayed as read-only fields.

Figure 2-12: Client List screen, Clients with Consents from Outside Agencies section, Link action item

Figure 2-13: Link Client Search screen
4. Use the search fields to find a client with similar information. It is helpful to copy and paste some of the consented client’s information into the search fields. The example in Figure 2-14 uses the Consented Client’s Unique Client Number in the search field.

![Figure 2-14: Link Client Search screen, search by Unique Client Number](image)

5. After filling out one or more search fields, click **Go** and then review the search results.

![Figure 2-15: Link Client Search screen with search results](image)

6. If the information in the search results matches the Consented Client information, hover over the Actions column and then click **Link**.
7. **Click Yes.**

8. **The client's Linked Consent screen will now display the consent record from the other agency.**
Part 3: Client Intake and Program Enrollment

Client Activity List

It is important to understand that data collection in WITS happens within a Client’s Activity List. The Case, or Episode of Care, is the container that holds all client activities. The beginning and end of a client’s Episode of Care are recorded on the Intake transaction, where the Intake Date starts the Episode and the Intake Date Closed marks the end of the Episode (these fields are shown in Figure 3-6: Intake Case Information screen on page 24).

The concept diagram below illustrates how this data collection is structured within the client Activity List. This Activity List is comprised of two (2) primary nested containers: Episode (e.g., Case, or Intake), and Program. The double lines connecting the Program container represent multiple program enrollments, which are allowed within a single Episode. In the diagram, arrows denote the sequence of progressing through each container.

When an Episode of Care ends for a client, this signifies that the client is no longer receiving services. It’s possible for that client to return at a future date.

![Client Activity List Diagram]

The Client Activity List can serve as a “dashboard” view for information that has been collected for a given client within an Episode. Each Activity on the Activity List has a status to help the end user determine if that activity is “Complete” or “In Progress”. When an activity is “In Progress”, a Details link is available which displays the information needed to complete the activity.

Certain client activities must be complete before you can proceed to a following activity. Validation rules will guide you throughout the workflow as you enter new data.

To access items within the Activity List, a client must be selected first.
Some Client Activities do not have a concept of being complete. For those activities, the Status will be listed as Not Applicable.
Start New Episode (New Clients)

Where: Client List > Activity List > Episode List

In WITS, all items located in a client’s Activity List are based upon an active Episode of Care. In the screen capture below, note the Activity List in the left menu only displays one item, “Episode List”. An episode must be created before accessing other items in the client’s Activity List.

To start a new episode of care for a client, follow the steps below.

1. On the left menu, click Episode List.
2. Click the Start New Episode link.

![Figure 3-4: Episode List screen, Start New Episode link]

If the client profile is missing certain information, such as an Address or fields on the Additional Information screen, a New Episode cannot be created and an error message will appear, as shown in Figure 3-5.

![Figure 3-5: Episode List screen, Error Message]

If the client profile is complete, clicking Start New Episode will open the Intake Case Information screen, as shown in Figure 3-6: Intake Case Information screen.

(Continue to next section)
Intake

Where: Client List > Activity List > Intake

Once an episode of care has been created (see above section), complete the client’s intake.

1. On the Intake Case Information screen, complete the fields as shown in the table below.

Table 3-1: Intake Case Information Fields

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Intake Facility</td>
<td>Pre-populates with the current facility location.</td>
</tr>
<tr>
<td>Intake Staff</td>
<td>Pre-populates with the current staff member name.</td>
</tr>
<tr>
<td>Initial Contact</td>
<td>Select from the drop-down list.</td>
</tr>
<tr>
<td>Case Status</td>
<td>Defaults to “Open Active”.</td>
</tr>
<tr>
<td>Initial Contact Date</td>
<td>The date when the Client first reached out for treatment.</td>
</tr>
<tr>
<td>Intake Date</td>
<td>Enter the client’s intake date, (which also marks the beginning of the client’s Episode).</td>
</tr>
<tr>
<td>Source of Referral</td>
<td>Select from the drop-down list.</td>
</tr>
<tr>
<td>Funding SCA</td>
<td>Pre-populates based upon Client Group Enrollment</td>
</tr>
<tr>
<td>Referral Contact</td>
<td>(Optional) Select from a list of the client’s collateral contacts.</td>
</tr>
<tr>
<td>Pregnant</td>
<td>Is the client pregnant at the time of admission? Complete if applicable.</td>
</tr>
<tr>
<td>Injection Drug User</td>
<td>Select Yes or No.</td>
</tr>
<tr>
<td>Problem Area</td>
<td>(Optional)</td>
</tr>
<tr>
<td>Presenting Problem (In Client’s Own Words)</td>
<td>(Optional)</td>
</tr>
<tr>
<td>Special Initiatives</td>
<td>Required.</td>
</tr>
<tr>
<td>Inter-Agency Service</td>
<td>(Optional)</td>
</tr>
<tr>
<td>Selected Domains</td>
<td>This field will be pre-populated and read-only if there is only one domain associated with the agency. If the agency has multiple domains, select the appropriate domain(s) for the client.</td>
</tr>
<tr>
<td>Date Closed</td>
<td>The Date Closed field is used to mark the end of the client’s Episode.</td>
</tr>
</tbody>
</table>
3. Click **Finish**.
Program Enroll

Where: Client List > Activity List > Program Enroll

Once an Intake has been created (see above section), complete the client’s program enrollment.

1. On the left menu, click Program Enroll.

2. Click the Add Enrollment link.

3. Complete fields on the Program Enrollment Profile.

Table 3-2: Program Enrollment Profile fields

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Facility</td>
<td>Defaults to the current Facility name.</td>
</tr>
<tr>
<td>Program Name</td>
<td>Select the appropriate program for the client</td>
</tr>
<tr>
<td>Program Staff</td>
<td>Pre-populates with the current staff member name.</td>
</tr>
<tr>
<td>Start Date</td>
<td>Defaults to the current date.</td>
</tr>
<tr>
<td>Days on Wait List (TEDS Only)</td>
<td>Type the number of days.</td>
</tr>
</tbody>
</table>
| Reason for waiting? (TEDS Only)      | If the client had to wait longer than two weeks to access the recommended level of care, select the reason from the drop-down list. This field will be required if:  
  • The program enrollment start date is more than 14 days from the most recent ASAM or Placement Summary date.  
  • The LOC associated with the program is different than the Recommended LOC of the most recent ASAM or Placement Summary (consented or client activity). |
| Notes                                | Type any notes as needed.                                                  |
4. Click Finish.

5. On the Program Enrollment screen, click Finish.
Part 4: GPRA Interviews

Where: Client List > Activity List > GPRA

To access the GPRA section in WITS, select a client from the Client List and then view the client’s Activity List. The GPRA section displays a list of previously entered GPRA interviews (at that agency) and includes link(s) to add a new interview record. For previously entered GPRA interviews, available actions include, View, Edit, and Delete, which are described below in Table 4-1: Available Actions for GPRA Interviews.

Important: The GPRA menu item will only appear if:

1. The staff member completing the GPRA interview has been assigned the following role, “GPRA (Full Access)”. This role is assigned by your WITS or agency administrator.

2. The GPRA interview is being done for a client who is enrolled in a WITS program associated with the SOR grant. Your WITS administrator should advise you as to which of your agencies’ programs are associated with the SOR grant.

Figure 4-1: GPRA Menu displaying previously entered GPRA Interviews with Actions

Tip: Depending on the existing interview record(s), the choice of adding a GPRA Follow up or a GPRA Discharge is available. The first GPRA Interview that can be added is the GPRA Intake.

Table 4-1: Available Actions for GPRA Interviews

</tr>
</tbody>
</table>
### Completing Interviews

#### Action Buttons

GPRA Interviews must be completed in one session and all questions must be answered to save the record. Clicking **Cancel** will cancel adding the GPRA interview. Users progress through the interview by completing the required fields on screen and then clicking the **right-arrow** button to move to the next set of questions. Each field must be completed before moving to the next screen.

![Figure 4-2: GPRA Interview Left and Right-arrow Buttons](image-url)
Users can choose to go back to a prior screen by clicking the left-arrow button, however, answers to the current screen will be lost (a confirmation screen will appear, prompting users to select 'Yes' or 'No' before proceeding).

![Confirmation message](image)

**Automation (Skip Logic)**

Based on the client’s response to certain questions, the screen will update causing some questions to become required and/or automatically filled in as read-only fields. For example, if the client has not served in the military (answered “No” to Section A Question 5), the system will automatically fill in the other military questions with “Not Applicable”.

![Screen example](image)
Answers Reviewed

Answers to some questions are also checked with responses given in subsequent sections. For example, the value in field B.1.d (used both alcohol and drugs (on the same day)) should not exceed value in B.1.c (used illegal drugs).

You reported that you have used illegal drugs during the past 30 days (B.1.c), then E4 (how many times have you committed a crime) should be no less than B.1.c, since taking illegal drugs is a crime. Do you wish to continue?

Entry for Question B.3 should be 'YES' if the Route for any substance is 'Non-IV Injection' or 'IV'.
GPRA Intake Interview

*Where: Client List > Activity List > GPRA > GPRA Intake*

Follow the steps below to add a GPRA Intake Interview.

1. To access the GPRA interview, select a client from the Client List, point to the pencil icon in the Actions column, and then click Activity List.

2. On the left menu, click GPRA.

3. On the GPRA List screen, click Add GPRA Intake.

4. The system will display the first of several GPRA Interview screen. Complete the required fields.
i Note: The ‘Interview Date’ must be greater than or equal to client intake date.

The ‘Interview Date’ must occur during the active period of the selected Program Enrollment (MM/DD/YYYY - ).

Figure 4-8: GPRA Intake, Record Management section

5. Click the right-arrow to move to the next GPRA section.

6. Once all questions have been answered, a read-only summary screen is displayed. Scroll to the bottom of the summary and then click Finish.

Figure 4-9: Intake Interview, Summary Screen
GPRA Interview Compliance Details

Grant Requirement

A GPRA Follow-up Interview must be completed with the client 6 months after the GPRA Intake Interview. There is a 3-month window to enter that follow-up interview in WITS and be in compliance with the grant program’s requirement. The compliance window opens 5 months after the GPRA Intake Interview and ends 8 months after the GPRA Intake Interview.

<table>
<thead>
<tr>
<th>Term</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Compliant</td>
<td>GPRA Follow-up Interviews entered into WITS during the compliance window specified above are considered compliant. The GPRA follow up interview must be conducted (Was the GPRA interview conducted = Yes) and the interview date must be within the window.</td>
</tr>
<tr>
<td>Non-Compliant</td>
<td>GPRA Follow-up Interviews entered into WITS outside of the compliance window specified above are considered non-compliant. This count also includes GPRA Follow-up Interviews that are entered in the system but were not conducted (with no interview date, Was the GPRA interview conducted = No).</td>
</tr>
<tr>
<td>Upcoming</td>
<td>Clients with no follow-up interview who have a GPRA intake Interview dated between 5 and 6 months ago (for 6-month follow up) are part of the Upcoming count.</td>
</tr>
<tr>
<td>Term</td>
<td>Meaning</td>
</tr>
<tr>
<td>------</td>
<td>---------</td>
</tr>
<tr>
<td><strong>Due</strong></td>
<td>Corresponds to the number of clients who have reached the due date (6 months) and do not yet have a GPRA Follow-up Interview record in WITS. This count does not consider the clients who have a corresponding GPRA Discharge Interview with a termination of “Death, Unknown” and “Death, Cause known”. This would cover a scenario where a client died before the follow-up became due.</td>
</tr>
<tr>
<td><strong>Missed</strong></td>
<td>The clients who do not have a GPRA Follow-up Interview entered into WITS after the end of the window are a part of the Missed count.</td>
</tr>

GPRA Follow-up Due Summary Screen

*Where: Agency > GPRA Follow-up Due Summary*

The **GPRA Follow-up Due Summary** screen displays a summary view of where an agency stands with their follow up interviews and includes the agency’s compliance rate. Users can select from the available search fields and click **Go** to view the search results. Information on these search fields are listed in the table below.

The search results will display a distinct count of GPRA interviews for each follow-up status available at the time of searching. For definitions of each status, see **Table 4-2: Follow up Attendance Definitions** on page 33 above.

**Table 4-3: GPRA Follow-up Due Summary Screen Search Filters**

</tbody>
</table>

Figure 4-13: GPRA Follow-up Due Detail screen

If the staff member was redirected to this screen by clicking the “Details” link on the GPRA Follow-up Due Summary screen, the Agency Type, Agency, Facility and Grant, search fields and Status will be prepopulated with the options entered on the Summary screen. The following informational message will also be displayed, “The records on this list may not match the total from the summary because you may not have access to some clients.”

Note: Since the GPRA Follow-up Due Detail screen includes client names, the search results displayed in the list are filtered to only include clients that the staff member has access to.
Figure 4-14: GPRA Follow-up Due Screen, pre-populated based on Summary screen selections

In the **Actions** column, clicking the “**View**” link will redirect to the client’s GPRA list screen if the staff member is currently in the same context agency as the client. If the staff members’ context agency is different than the client, clicking the “**View**” link will display the following error message, “**This client does not exist in the context agency. Please change your context agency to view the client.**”

Figure 4-15: GPRA Follow-up Due Detail, View link

**Note:** If you have access to multiple agencies, make sure you’re in the correct context agency to view the client record. Otherwise, the following error message will be displayed.

“**This client does not exist in the context agency. Please change your context agency to view the client.**”
GPRA Follow-up Interview

Where: Client List > Activity List > GPRA > GPRA Follow-up

GPRA Follow-up Interviews should be added 5 to 8 months after a client’s GPRA Intake Interview Date. Follow-up GPRA Interviews include additional questions to record the follow-up status. To add a follow-up record, follow the steps below.

**Note:** If a follow-up interview has been conducted, sections B through G and I must be completed. If the follow-up interview has not been conducted, section I must be completed.

1. To access the GPRA interview, select a client from the Client List, point to the pencil icon in the Actions column, and then click Activity List.

2. On the left menu, click GPRA.

3. On the GPRA List screen click Add GPRA Follow-up.

Figure 4-16: GPRA list, Add GPRA Follow-up link
4. The system will display a confirmation screen stating, “You are about to enter a 6-month follow-up record for this client. Would you like to continue?” Select Yes to start the follow-up interview.

Figure 4-17: Follow-up interview confirmation screen

**Note:** The system will display a warning message if the Follow-up Interview Date is not within 5 to 8 months after the GPRA Intake Interview Date. This message will also be displayed on the GPRA list screen.

5. When the interview opens, complete the required fields and click the right-arrow button to progress to the next screen. If the interview was not conducted (answered “No” to the question “Did you conduct an interview?”), clicking the right-arrow button will display Section I. Follow-up Status.

Figure 4-18: GPRA Follow-up, Section A. Record Management
6. In **Section A. Record Management - Behavioral Health Diagnoses**, if the client had medications selected on their encounter(s) within the grant episode, and the user answers “Yes” to questions 1a or 2a, then medication information will be prepopulated on screen. Users can modify this prepopulated information as needed.

**Note:** Encounters may have been entered in other agencies than yours.

The Received field will be set to “Yes” for each medication listed on the encounter(s), and “No” to all other medications. For each drug received, the number of days will be set based on the encounter(s) of the client’s grant episode, and when the encounter service start date or end date were 30 days or less from the GPRA interview date. If more than one drug was selected on an encounter, then the same number of days for each drug on the GPRA discharge and Follow ups will be set. The number of days is based on encounter service start date/end date. If the encounter has no end date, it will be counted as one day. If multiple encounters are entered on the same day, then it counts 1 day per medication.

![Figure 4-19: GPRA Follow-up Interview, Section A, questions 1a and 2a, prepopulated values](image-url)
Note: For question I.1., make sure to select the correct follow-up status for the client from the drop-down list, especially when selecting if the interview was completed within specified window, or outside specified window.

7. Once all questions have been answered, a read-only summary screen is displayed. Scroll to the bottom of the summary and then click Finish.

8. If the GPRA Follow up interview was conducted within the 5 to 8 months window, and if no GPRA Discharge exists for this client’s grant episode, then the system will display a confirmation screen asking if you would like to create a GPRA Discharge interview with the same information as the GPRA Follow up interview:
Select **Yes** and the GPRA Discharge will automatically be created. It is recommended that you review the newly created GPRA Discharge interview and make any updates as necessary. For example, **section J – Discharge Status** may need questions 3. and 4. updated from “No” to “Yes”, if it applies.

![Image of Discharge Status](image-url)

Figure 4-20: Discharge Status
GPRA Discharge Due Screen

Where: Agency > GPRA Discharge Due

The GPRA Discharge Due screen displays at the Agency level, clients with a GPRA Intake interview date 30 days ago and the client has no encounter, or their most recent encounter is 30 days ago. Users can select from the available search fields and click Go to view the search results. In the Actions column, clicking the ‘View Client’ link will redirect to the client’s GPRA list screen if the staff member is currently in the same context agency as the client.

Table 4-5: GPRA Discharge Due Screen Search Filters

Figure 4-22: GPRA Discharge Due screen, View Client link
GPRA Discharge Interview

Where: Client List > Activity List > GPRA > GPRA Discharge

To add a discharge record, follow the steps below.

**Note:** If a Discharge interview has been conducted, Sections B through G, J and K must be completed.

If the Discharge interview has not been conducted, Sections J and K must be completed.

1. To access the GPRA interview, select a client from the **Client List**, point to the pencil icon in the Actions column, and then click **Activity List**.

2. On the left menu, click **GPRA**.

3. On the GPRA List screen, click **Add GPRA Discharge**.

Figure 4-23: GPRA List screen, Add GPRA Discharge link
4. The system will display the following message, “You are about to enter a discharge record for this client. Would you like to continue?” Select **Yes** to start the discharge interview.

![Discharge interview confirmation screen](image)

**Figure 4-24: Discharge interview confirmation screen**

5. When the interview opens, complete the required fields and click the **right-arrow** button to progress to the next screen. If the interview was not conducted (answered “No” to the question “Did you conduct an interview?”), clicking the right-arrow button will display Section J. Discharge Status.

![GPRA Discharge Interview; Section A. Record Management](image)

**Figure 4-25: GPRA Discharge Interview; Section A. Record Management**
6. In **Section A. Record Management - Behavioral Health Diagnoses**, if the client had medications selected on their encounter(s), and the user answers "Yes" to questions 1a or 2a, medication information will be prepopulated on screen. Users can modify this prepopulated information as needed.

**Note:** Encounters may have been entered in other agencies than yours.

The Received field will be set to “Yes” for each medication listed on the encounter(s), and “No” to all other medications. For each drug received, the number of days will be set based on the encounter(s) of the client’s grant episode, and when the encounter service start date or end date were 30 days or less from the GPRA interview date. If more than one drug was selected on an encounter, then the same number of days for each drug is set on the GPRA discharge and Follow ups. The number of days is based on encounter service start date/end date. If the encounter has no end date, it will be counted as one day. If multiple encounters are entered on the same day, 1 day per medication is counted.

![Figure 4-26: GPRA Discharge Interview, Section A, questions 1a and 2a, prepopulated values](image)

7. Complete the required fields and click the **right-arrow** button to progress to the next screen.
8. **Section K – Services Received** will be prepopulated based on the encounter(s) recorded for the client within the grant episode (encounters may have been entered in other agencies than yours). You may edit this section as needed.
Figure 4-29: Section K. Services Received; Number of Sessions Provided

Please contact your system administrator if you believe encounters exist for this client but the Services Received section is not populated with the number of days and sessions; the mapping of the modalities and services may be incomplete.

9. Once all questions have been answered, a read-only summary screen is displayed. Scroll to the bottom of the summary and then click **Finish**.
Part 5: Consent and Referrals

Create Client Consent Record

*Where: Client List > Activity List > Consent*

The consent is a formal process adhering to 42 CFR Part 2, which governs the sharing of client information between agencies and facilities using WITS. A consent may also be used to record the sharing of information (on paper) with agencies who do not use WITS, making the consent part of the electronic health record.

1. On the left menu, click **Client List** and search for a client.

2. Locate the client, hover over the Actions column, and then click **Activity List**.

3. On the left menu, click **Consent**.

4. Click the **Add New Client Consent Record** link.

5. Select **No**.

6. On the Client Disclosure Agreement screen, complete the following fields.

*Table 5-1: Client Disclosure Agreement fields*

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Entities with Disclosure Agreements</td>
<td>Select from the drop-down list. This field will display a list of agencies that have previously created a Disclosure template. This will prepopulate fields in the “Client Information To Be Consented” section, which can then be modified if needed.</td>
</tr>
<tr>
<td>System Agency</td>
<td>Select “Yes” if the agency uses WITS.</td>
</tr>
<tr>
<td>Disclosed to Agency</td>
<td>Select the agency that will be receiving the client’s information.</td>
</tr>
<tr>
<td>Facility</td>
<td>Select the facility within the selected Agency that will be receiving the client’s information. Select All Facilities, or an individual facility.</td>
</tr>
<tr>
<td>Purpose for Disclosure</td>
<td>Type the reason for creating the Consent record.</td>
</tr>
<tr>
<td>Earliest date of services to be consented</td>
<td>Select the date.</td>
</tr>
<tr>
<td>Has the client signed the paper agreement form</td>
<td>Select “No” to save the screen and have the client sign the paper form (see below), after client has signed, select “Yes”.</td>
</tr>
</tbody>
</table>
7. If additional consent information needs to be added or removed from the client’s disclosure agreement, update the options from the “Client Information To Be Consented” section. Your agency administrator may have set up templates for the disclosure agreement.

Table 5-2: Client Information To Be Consented fields

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Expiration Type and + Days</td>
<td>Select either “Discharge (UD)” or “Date Signed (DS)”, then when the yellow field appears, enter the number of days the consent will expire.</td>
</tr>
<tr>
<td>Client Information Options/Disclosure Selection</td>
<td>Select options from the box and use the mover buttons to add or remove the desired consent options.</td>
</tr>
</tbody>
</table>

8. When all required fields are complete, click **Save**.
Print the Client Consent Form

9. After saving the Client Disclosure Agreement screen, click the **Generate Report** link to print the Client Consent Form to get the client’s signature on the paper copy. The printed consent form includes items from the Client Information Options box along with the Consent Expires information.

10. Once the client has signed the paper form, update these fields:
   - **Has client signed the paper agreement form**: select “Yes”
   - **Date client signed consent**: defaults to current date

11. Click **Save** and stay on this screen (notice the fields are now grayed out).

12. After saving the client consent, a link to add a Client Referral for this consent will be available. This will open the client referral screen, and will pre-populate the signed consent and Agency fields of the Referred to section.

13. Click the link, **Create Referral Using this Disclosure Agreement**, and continue to the next section.
Referrals

Create a Client Referral

Where: Client List > Activity List > Referrals

Continuing from previous section...

Once the Client Consent is complete, create the Client Referral Record. A referral is used when the receiving agency (another WITS agency) will be providing services for the client. Referrals may also be done from one facility to another facility within the same agency.

1. After clicking the Create Referral Using this Disclosure Agreement link, the Referral screen will open.

![Referral screen](image)

Figure 5-4: Referral screen

2. On the Client Referral screen, complete the required fields in the Referred By section, including:

Table 5-3: Referred By fields

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Program</td>
<td>Select the Program. It should be a referral from a program with the SOR grant to another program with the SOR grant</td>
</tr>
<tr>
<td>Reason</td>
<td>In the drop-down field, select the reason why this client is being referred.</td>
</tr>
<tr>
<td>Is Consent Verification Required?</td>
<td>Select Yes.</td>
</tr>
<tr>
<td>Is Consent Verified?</td>
<td>Select Yes.</td>
</tr>
<tr>
<td>Continue Episode of Care?</td>
<td>Select No.</td>
</tr>
<tr>
<td>Referral Status</td>
<td>State of the referral (this should be &quot;Referral Created/Pending&quot;).</td>
</tr>
</tbody>
</table>
3. Next, in the **Referrer To** section, complete all the required fields, including:

<table>
<thead>
<tr>
<th>Table 5-4: Referred To fields</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Field</strong></td>
</tr>
<tr>
<td>Signed Consents</td>
</tr>
<tr>
<td>Agency</td>
</tr>
<tr>
<td>Facility</td>
</tr>
<tr>
<td>Program</td>
</tr>
</tbody>
</table>

4. When complete, click **Save**.
Viewing Referrals

Referrals In

Where: Agency > Agency List > Referrals > Referrals In

Whenever clients are referred in to your Agency from another agency, a message will appear on the Home Page as shown in Figure 5-5: Home Page with "referred in" notification. Clients who have been referred in have signed a consent form agreeing to share certain information with your agency. To review these referrals, follow the steps below.

Role Needed:
- Referrals (Full Access)

Note: Only users with the Referrals (Full Access) role will see Referrals left menu link.

1. On the left menu, click Agency, click Referrals, and then click Referrals In.
2. On the Referrals In Search screen, in the Referral Status Codes field, select “Referral Created/Pending” and move this option to the Search Criteria box by clicking the mover button (>) as shown in figure below.
3. After selecting the search criteria, click Go to view the search results list.

![Figure 5-5: Home Page with "referred in" notification](image)

![Figure 5-6: Referrals In Search screen](image)
4. Notice that any referred clients will appear in the list portion of the screen. To view a client’s referral information, hover over the Actions column, and then click **Review**.

![Referrals Search Results, Review link](image)

**Figure 5-7: Referrals Search Results, Review link**

5. To accept the client referral, click on the **Referral Status** field and select “**Placed/Accepted**” from the drop-down list. The client must be accepted into your agency before viewing the client’s record, or working on the case.

![Referral screen, Referral Status field](image)

**Figure 5-8: Referral screen, Referral Status field**

6. (Optional) Next, fill in the **Appointment Date (Appt Date)** and use the drop down box to provide any additional information about the appointment.

7. Click **Finish** to save the record and accept the referral. Note that this action takes you to the Client Profile screen for the client you just accepted.

(Optional) Additional **Referral Status** reasons to select:

- **Referred/Terminated**: When the referral has been deleted by the referring agency.
- **Refused Treatment**: Select if the client does not want to be treated.
- **Rejected by Program**: If the client is not eligible or is not acting in compliance.
- **Wait List**: If the client is waiting for a slot to open in the program.

**Note**: Once the referral is Placed/Accepted, the client record is created within the Agency, and an Intake and Client Program Enrollment is created within the referred to Facility.
Referrals Out

Where: Agency > Agency List > Referrals > Referrals Out

The Referrals Out screen is used to check the status of referrals made from your agency to other agencies.

1. On the left menu, click Agency, click Referrals, and then click Referrals Out.

2. On the Referrals Out Search screen, in the Referral Status Codes field, select the desired codes and move them to the Search Criteria box by clicking the mover button (>).

3. After selecting the search criteria, click Go to view the search results list.

Figure 5-9: Referrals Out screen
Removed Consents

Where: Agency > Agency List > Removed Consents

This screen displays clients with consents that have been removed. This is typically done if a client is no longer in treatment at your agency. To help easily manage the number of clients with consents from outside agencies on the Client List screen, users with the Clinical Supervisor role can “remove” consented clients from the list.

Figure 5-10: Removed Consents screen
Part 6: Encounters
Create Encounter Notes

Where: Client List > Activity List > Encounters

1. On the left menu, click Client List and search for a client.
2. Hover over the Actions column and click Activity List.
3. On the left menu, click Encounters. This will display the Encounter Search/List screen.
4. To view previous encounters, complete the search fields and click Go.
5. To create a new encounter, click Add Encounter.

Figure 6-2: Encounter screen, Add Encounter
6. Complete the fields on the Encounter Profile screen. See table below for information on each field.

### Table 6-1: Encounter Profile fields

7. Click **Save**, and then click the **right-arrow**.

Encounter Notes section of the Encounter allows the staff to enter notes related to the time spent with the client. If the client has an Active Treatment Plan, the staff can add Goals, Objectives, and Interventions to the encounter.
Part 7: Overdose Reversal Kit

Where: Agency > Overdose Reversal Kit

Required Role(s):
- Overdose Reversal Kits Management (Full Access)
- Overdose Reversal Kits Management (Read Only)

As part of the SOR reporting requirements, grantees must provide on a quarterly basis the number of naloxone kits purchased and distributed with the SOR funds. This new module has been created to track three (3) types of events:

Event Types:
- Naloxone Purchase
- Naloxone Distribution
- Naloxone Administration

Note: Please refer to the WITS Basics User guide, Part 1: System Icons for information on the screen conventions for the Overdose Reversal screens.
Add New Overdose Reversal Kit Event

1. On the left menu, click **Agency**, and then click **Overdose Reversal Kits**.

2. Click **Create New Overdose Reversal Kit Event**.

![Create New Overdose Reversal Kit Event](image)

Figure 7-1: Create New Overdose Reversal Kit Event

3. On the **Add Overdose Reversal Kit Event** dialog box, complete the fields as shown in the table below.

**Table 7-1: Add Overdose Reversal Kit Event dialog box fields**

<table>
<thead>
<tr>

4. Click **Save**. This will open the Event Workspace screen.
Naloxone Purchase

To record when Naloxone was purchased, follow the steps below.

1. On the left menu, click **Agency**, and then click **Overdose Reversal Kits**.
2. Click **Create New Overdose Reversal Kit Event**.
3. On the **Add Overdose Reversal Kit Event** dialog box, in the **Event Type** field, select **Naloxone Purchase** from the drop-down list.

![Add Overdose Reversal Kit Event dialog box, Naloxone Purchase](image)

4. Update the other fields as applicable. Click **Save**. This will open the Purchase Event Workspace screen.
Panel: Event

1. On the **Purchase Event Workspace** screen, in the **Event** panel, click the **pencil icon** to edit the event information.

   ![Figure 7-4: Purchase Event, edit Event panel](image)

2. In the **Event** panel, update the fields as shown in the table below.

<tr>
<td>Number of Kits</td>
<td>Type an integer.</td>
</tr>
<tr>
<td>Cost of Kits</td>
<td>Type an integer (whole numbers).</td>
</tr>
</tbody>
</table>
3. Click **Save**.

4. Continue adding additional kits as needed by clicking **Add Kits Detail**.

Figure 7-5: Add additional Kits
As you add various Kit Types, the Number of Kits and Cost of Kits, WITS will automatically add those values and display in the Total fields at the top of the Kits Detail screen.

![Kits Detail panel with Total numbers](image)

**Option 2: Add Kit Numbers Only**

If you do not know the type(s) of kit(s) that were purchased, you may directly enter the **Total # of Kits Purchased** and/or the **Total Funds Spent**.

**Note:** If you later decide to add details for each kit purchased, then the values previously entered in the fields, **Total # of Kits Purchased** and **Total Funds Spent** will automatically be replaced by the total amounts entered when adding kits detail.

1. To add the total number purchased, in the **Kits Detail** panel, click the top **pencil icon**.
2. In the field, **Total # of Kits Purchased**, type an integer.

3. Click **Save**.

4. To add the total funds spent for this purchase, in the **Kits Detail** panel, click the bottom **pencil icon**.

5. In the field, **Total Funds Spent**, type an integer (whole numbers).
6. Click **Save**.
Additional Steps/Related Information

To update kit information, click the **Edit** icon.

To delete a kit type, click the **Remove** icon and then select either **Yes** or **No**.
Naloxone Distribution

To record when Naloxone was distributed, follow the steps below.

1. On the left menu, click Agency, and then click Overdose Reversal Kits.
2. Click Create New Overdose Reversal Kit Event.
3. On the Add Overdose Reversal Kit Event dialog box, in the Event Type field, select Naloxone Distribution from the drop-down list.
4. Update the other fields as applicable. Click Save. This will open the Distribution Event Workspace screen.
Panel: Event

1. On the Distribution Event Workspace screen, in the Event panel, click the pencil icon to edit the event information.

![Distribution Event Workspace](image)

Figure 7-8: Distribution Event, edit Event panel

2. Enter information for this Distribution Event as shown in the table below.

3. Click Save.

Panel: Kit Detail

Option 1: Add Kit Type

1. If you know the type(s) of kit(s) distributed, in the Kits Detail panel, click Add Kit Detail.
2. Select the **Kit Type** and the **Number of Kits**.

3. Click **Save**.

**Option 2: Add Kit Number Only**

If you do not know the detail of kits that were distributed, you may directly enter the **Total # of Kits Distributed**.

**Note**: If you later decide to add details for the kit(s) distributed, then the number entered in the field, **Total # of Kits Distributed**, will automatically be replaced by the total amount entered for the kit detail.

1. If you only know the number of kits distributed, in the **Kits Detail panel**, click the **pencil icon**.

2. Type the number of kits distributed.
3. Click **Save**.

**Panel: Address**

1. On the **Distribution Event Workspace** screen, in the **Address** panel, click the **pencil icon** to edit the information.

2. Complete the address fields and then click **Save**.
Add New Overdose Reversal Kit Event
Naloxone Administration

To record when Naloxone was administered, follow the steps below.

1. On the left menu, click **Agency**, and then click **Overdose Reversal Kits**.
2. Click **Create New Overdose Reversal Kit Event**.
3. On the **Add Overdose Reversal Kit Event** dialog box, in the **Event Type** field, select **Naloxone Administration** from the drop-down list.

![Add Overdose Reversal Kit Event dialog box, Naloxone Administration](image)

4. Update the other fields as applicable. Click **Save**. This will open the Administration Event Workspace screen.
Panel: Event

1. On the Administration Event Workspace screen, in the Event panel, click the pencil icon to edit the event information.

![Administration Event Workspace](image)

</tbody>
</table>
3. Click **Save**.

**Panel: Kit Detail**

**Option 1: Add Kit Type**

1. If you know the type(s) of kit(s) administered, in the **Kit Detail** panel, click **Add Kits Detail**.

2. Select the **Kit Type** and the **Number of Kits**.

3. Click **Save**.

**Option 2: Add Kit Number Only**

If you do not know the type of kit(s) administered, you may directly enter the **Total # of Kits Administered**.

*Note:* If you later decide to add details for the kit(s) administered, then the number entered in the field, **Total # of Kits Administered**, will automatically be replaced by the total amount entered for the kit detail.

1. In the **Kits Detail** panel, click the **pencil icon**.
2. Type the number of kits administered.

3. Click Save.

Panel: Address

1. On the Administration Event Workspace screen, in the Address panel, click the pencil icon to edit the information.

2. Complete the address fields and then click Save.
Panel: About the person who overdosed

On this panel, enter the Gender, Race, and Age of the person who overdosed.

1. On the Administration Event Workspace screen, in the About the person who overdosed panel, click the pencil icon to edit the information.

2. Complete the fields with information about the person who overdosed.
3. Click **Save**.
Linked Events

If the same agency has purchased kits and then distributed those kits, those records can be linked together. In addition, an Administration Event can be linked to a Distribution Event.

**Note:** Linked events allow information to prepopulate fields from one event to the next, and it opens the possibility for reporting across events. However, at this point there are no rules preventing the user from distributing more kits than were purchased, or administering more than was distributed.

Link a Distribution Event with a Purchase Event

To associate a Distribution Event with a Purchase Event, follow the steps below.

1. On the left menu, click **Agency**, and then click **Overdose Reversal Kits**.
2. On the **Overdose Reversal Kit Event Search** screen, locate the desired Naloxone Purchase event.
3. Point the pencil icon, and then click **Add Naloxone Distribution Event**.
4. On the **Add Linked Distribution Event** dialog box, review and update the fields as applicable, then click **Save**. This will open the Distribution Event Workspace screen.

![Add Linked Naloxone Distribution Event](image-url)
Panel: Event

For linked events, the Distribution Event panel will be prepopulated with information entered on the linked Purchase Event.

1. To update this information, in the Event panel, click the Edit icon.

2. Update the Event fields as applicable.

Table 7-6: Distribution Event fields
### Panel: Kits Detail

Since this Distribution Event is linked to a specific Purchase Event, the types of kits available to select are linked to those entered for that Purchase Event.

In the following example (shown in the screen captures below), two types of Naloxone kits were bought and recorded on a Purchase Event. By linking to this Purchase Event, the Distribution Event displays those two types of Naloxone kits within the Kit Type drop-down field.

1. To enter information about the kit, click **Add Kits Detail**.

2. On the Kits Detail panel, select the **Kit Type** and then enter the **Number of Kits** administered.
3. Click **Save**. Add additional kit types as applicable.

**Panel: Address**

1. On the **Distribution Event Workspace** screen, in the **Address** panel, click the **pencil icon** to edit the information.

2. Complete the address fields and then click **Save**.
Link a Naloxone Administration Event with a Distribution Event

To associate an Administration Event with a Distribution Event, follow the steps below.

1. On the left menu, click **Agency**, and then click **Overdose Reversal Kits**.

2. On the **Overdose Reversal Kit Event Search** screen, locate the desired Naloxone Distribution event.

3. Point the pencil icon, and then click **Add Naloxone Administration Event**.

4. On the **Add Linked Administration Event** dialog box, review and update the fields as applicable, and then click **Save**. This will open the Administration Event Workspace screen.
Panel: Event

For linked events, information included in the Administration Event panel will be prepopulated using options selected on the linked Distribution Event.

**Note:** Linked events allow to prepopulate fields from one event to the next, and it opens the possibility for reporting across events. However, at this point there are no rules preventing the user from distributing more kits than were purchased, or administering more than was distributed.

1. To update event information, in the Event panel, click the **Edit** icon.

   ![Edit icon](image)

   7-16: Linked Administration Event, edit Event panel

2. Update the Event fields as applicable, and then click **Save**.

</table>
Panel: Kits Detail

1. To enter information about the kit, click **Add Kits Detail**.

2. On the Kits Detail panel, select the **Kit Type** and then enter the **Number of Kits** administered.

3. Click **Save**.

Panel: Address

1. On the **Administration Event Workspace** screen, in the **Address** panel, click the **pencil icon** to edit the information.

2. Complete the address fields and then click **Save**.
Panel: About the person who overdosed

On this panel, enter the Gender, Race, and Age of the person who overdosed.

1. On the Administration Event Workspace screen, in the About the person who overdosed panel, click the pencil icon to edit the information.

2. Complete the fields with information about the person who overdosed, and then click Save.
Review an Overdose Reversal Kit

If you need to review and/or edit an event that was previously entered, follow these steps:

1. On the left menu, click Agency, and then click Overdose Reversal Kits.
2. On the Overdose Reversal Kit Event Search screen, locate the desired event to review.
3. Point the pencil icon, and then click View Naloxone Event.
4. On the Event Workspace, click the Edit button at the top in order to make the workspace editable.
5. Locate the panel(s) to update and click the associated pencil icon to make updates.
