

### **Updates to On-demand Training Modules**

Due to issues with TrainPA that were being reported, DDAP has made changes to the following on-demand modules:

- Drug and Alcohol Confidentiality
- Case Management Overview

Because of these changes, users who registered for the previous versions will need to withdraw from the course(s) and register for the new version. When searching for the modules, only the new versions will be visible.

We apologize for any confusion or inconvenience this change may cause, but it should resolve any issues that users may have been having with the previous module versions.

If you have any questions, please contact the DDAP Training Section at [ra-datrainig@pa.gov](mailto:ra-datrainig@pa.gov).

Thank you,  
DDAP Training Section
