

September 2021 Update

UPDATE: Effective January 1, 2020, DDAP expanded its approved curriculum to include online training through The Change Companies' ASAM Criteria 2013 Edition E-learning modules. This newly approved training is in addition to the already approved 2-day in person training on The ASAM Criteria, 2013. Both training options will satisfy DDAP's training requirement. See the training notice located here:
